Professional Profile

I am a BSc (Hons) Computer Science undergraduate at the University of Westminster, with a strong interest in Quality Assurance, software testing, and problem solving. My academic projects have strengthened my ability to identify bugs, validate system behavior, and ensure a reliable user experience. I am detail oriented and continuously improving my skills in testing, debugging, and delivering high-quality software solutions.

Education

BSc (Hons) Computer Science : University of Westminster, UK **(Sep 2024 – Present)**
1st Year : 120 credits, 2nd Year:

Diploma in Computer Application : Sarvodaya - Fusion **(Jan 2024 – July 2024)**
Overall Grade : B

Diploma in Computer Science : Sarvodaya - Fusion **(Jan 2024 – Nov 2024)**
Overall Grade : A

Diploma in Spoken English : Britishway English Academy **(Feb 2024 – April 2024)**
Distinction Pass

G.C.E. Advanced Level : Central College Kuliyapitiya **(2023)**
3S's (Physical Science Stream)

G.C.E. Ordinary Level : Central College Kuliyapitiya **(2020)**
7A, 2B

Projects

Safe Paws - Stray Animal Welfare App (Group) **(Oct 2025 – Mar 2026)**
JavaScript, Mongo DB, React Native, Python
Safe Paws is a mobile app designed to help rescue injured stray dogs, connect pet owners with nearby veterinary services, and support adoption and lost and found cases through a single unified platform.

Brain Beat - Quiz App (Individual) : React JS **(Dec 2025 – Ongoing)**
In this quiz app you can update your own questions and multiple options. This React JS Project Quiz app will display the score after submitting the answers for all questions.

Coffee Avenue - Web Site (Individual) : HTML, CSS and JavaScript **(June 2025 – July 2025)**
A responsive and interactive Coffee shop web site.

EuroFlight Insight - Airport Data Analysis System (Individual) : Python **(May 2025 - June 2025)**
A pyhon project that analyze data visualize air traffic departure data from European airports.

Life Below Water - Website (Group) : HTML and CSS **(Feb 2025 – Mar 2025)**
A collaborative website project promoting SDG awareness.

Traffic Data Analysis System (Individual) : Python **(Nov 2024 - Dec 2024)**
A python project that performs data validation, processing and analysis on traffic survey data sets.

Volunteering Experiences

IEEE Computational Intelligence Society of IIT
ConnectX (Event Vice Chair) *(Sep 2025 – Oct 2025)*
Coordinated with the IEEE CIS board, managed event planning, and handled participant engagement to ensure a smooth industry visit series.

PRESTIGE (Secretarial Volunteering member) *(Feb 2025 – June 2025)*
Supported event operations by drafting captions, preparing email communications, and managing participant registrations during event days.

IEEE Women in Engineering Affinity Group of IIT

Fusion by WSO2 (Organizing Committee) *(Nov 2025 – Dec 2025)*

Organized a one day workshop introducing students to the Site Reliability Engineering (SRE) role, including sessions by WSO2 representatives on internships and career insights, and an IIT intern sharing their experience.

AdaptIQ (Logistic Volunteering member) *(Aug 2025 – Oct 2025)*

Assisted in organizing regional workshops and managing logistics for the first round and grand finals, ensuring smooth operations for participants across Sri Lanka.

SyncUp (Logistic Volunteering member) *(June 2025 – Aug 2025)*

Supported pre-event preparations including hall setup and decorations, and assisted during the two-day event to ensure smooth execution.

IEEE Student Branch - Informatics Institute of Technology

JamborIEEE Zone D (Volunteering member from IIT) *(July 2025 – November 2025)*

Assisted in coordinating event operations and logistics for JamborIEEE 2025, collaborating with six IEEE Student Branches.

The Students' Union of the Informatics Institute of Technology (IIT)

Stage Craft 2025 (Logistic Volunteering member) *(May 2025)*

Managed backstage operations and coordinated the Dynamites dance team, supporting seamless execution of performances during the event.

Certifications

ADVANCED TIER, CodeRally 6.0 Hackathon

Competed as a part of team Hacktics-CR138 in CodeRally 6.0 hosted by the IEEE Computer Society Student Branch Chapter of IIT.Achieved selection to the ADVANCED TIER based on selection week performance, showcasing technical skills, collaboration, and innovative problem-solving under competitive conditions.

UoW - Problem-Solving International Hackathon 2025

Participated for a hackathon as a team of 4 members first time.

SHErlock 2.0

participated as a part of team Hopkins in SHErlock 2.0 hosted by the IEEE Women in Engineering Affinity Group of IIT.

Extra Curricular Activities

- Publicity and Visibility Lead of the IEEE Women in Engineering Affinity Group of IIT (Term 2026)
- Video Content Leader in Marketing in AIESEC in IIT (Term 2026)
- Member of IEEE Student Branch of IIT (2024 - present)
- Member of IEEE Women in Engineering Affinity Group of IIT (2024 - present)
- Member of AIESEC in IIT (2026 - present)
- Member of IEEE Computational Intelligence Society of IIT (2024 - 2025)
- Member of IEEE Computer Society SBC of IIT (2024 - 2025)
- Member of the Rotaract Club of IIT and Leo Club of IIT (2024 - 2025)
- Volunteer Member of IIT Sports Council (2025/26)
- Member of Shakthi Media Unit (2015 - 2023)
- Team Leader of Girl Guide Association (2015 - 2020)
